

Oil Safe[®]

Label Safe[™]

Grease Safe[®]

Fluid Defense Systems, revolutionizing fluid management from bulk storage to point of use.

Our fully integrated product line currently includes:

- OIL SAFE[®] fluid management system
- LABEL SAFE[™] advanced labeling system
- GREASE SAFE[®] ultimate cartridge management system

World class lube programs everywhere use our systems individually or as one integrated solution to deliver consistent product quality, a clean and safe working environment, and maximum operational profitability. Achieve lubrication excellence in your working environment with Fluid Defense Systems.

The Lubrication Reliability Source[™]

For more than a decade, OIL SAFE® has been the oil transfer management system preferred by leading companies around the world.

Best practice operations around the world count on OIL SAFE® to deliver clean oil from bulk storage to the point of use.

Innovative, practical and durable, the fully sealing and color coded OIL SAFE system:

- Makes lubrication work easier, faster, safer and cleaner
- Protects expensive lubricants from contamination
- Reduces machinery downtime
- Improves productivity
- Increases bottom line savings
- Improves OSHA compliance
- Is proven, simple and reliable
- Has withstood the rigors of the most demanding work environments

Available from Lubrication Engineers, Inc., the world's only system for complete fluid transfer management.

OIL SAFE is part of an innovative family of products that combine to form a revolutionary system for managing lubricants from bulk storage to the point of use.

The fully integrated fluid management system includes:

Oil Safe®

Label Safe™

Grease Safe®

Highly visual, simple and reliable, the LABEL SAFE™ Advanced Labeling System ensures the right lubricant goes into the right machine every time.

Specially designed for industry, LABEL SAFE™ is the only industrial grade labeling system in the world that enables accurate lubricant identification from bulk storage to the point of use.

Innovative, practical and durable, the fully integrated and color coded LABEL SAFE system:

- Ensures the right lubricant goes into the right machine every time
- Improves OSHA compliance
- Accommodates inclusion of MSDS at all steps of the lubrication process
- Enables consistent identification of bulk storage, intermediate container and point of use
- Is flexible and suitable for multiple workplace applications
- Is industrial grade, high quality and suitable for outdoor use
- Improves productivity and efficiency
- Increases bottom line savings

Label Safe™

Grease Safe®

The best practice system for grease cartridge storage, handling and identification.

GREASE SAFE® is the innovative, professional solution for grease cartridge storage and handling. Simple, reliable and durable, GREASE SAFE improves workplace organization and productivity by making the transportation and storage of both new and used grease cartridges easy, clean and safe.

Innovative, practical and durable, the color coded GREASE SAFE system:

- Protects grease cartridges from contamination, weather and accidental damage
- Eliminates the frustration of trying to locate grease cartridges when needed
- Enables clean, safe return of used cartridges from site
- Improves OSHA compliance
- Minimizes spillage and waste
- Transports cartridges easily on-site and in vehicles, with the purpose built CARTRIDGE CADDY™ 6-pack
- Provides superior work place organization with the wall mounted CARTRIDGE RACK™
